

## Important notice

Dear Customer,

On 7 February 2017 the former NXP Standard Product business became a new company with the tradename **Nexperia**. Nexperia is an industry leading supplier of Discrete, Logic and PowerMOS semiconductors with its focus on the automotive, industrial, computing, consumer and wearable application markets

In data sheets and application notes which still contain NXP or Philips Semiconductors references, use the references to Nexperia, as shown below.

Instead of <a href="http://www.nxp.com">http://www.nxp.com</a>, <a href="http://www.semiconductors.philips.com/">http://www.nxp.com</a>, <a href="http://www.nexperia.com/">http://www.nexperia.com/</a>, <a href="http://www.nexperia.com/">http://www.nexperia.com/</a>, <a href="http://www.nexperia.com/">use http://www.nexperia.com/</a>

Instead of sales.addresses@www.nxp.com or sales.addresses@www.semiconductors.philips.com, use salesaddresses@nexperia.com (email)

Replace the copyright notice at the bottom of each page or elsewhere in the document, depending on the version, as shown below:

- © NXP N.V. (year). All rights reserved or © Koninklijke Philips Electronics N.V. (year). All rights reserved

Should be replaced with:

- © Nexperia B.V. (year). All rights reserved.

If you have any questions related to the data sheet, please contact our nearest sales office via e-mail or telephone (details via **salesaddresses@nexperia.com**). Thank you for your cooperation and understanding,

Kind regards,

Team Nexperia

# DATA SHEET

PBSS4320X 20 V, 3 A NPN low V<sub>CEsat</sub> (BISS) transistor

Product data sheet Supersedes data of 2003 Dec 15 2004 Nov 03

# 20 V, 3 A NPN low V<sub>CEsat</sub> (BISS) transistor

# **PBSS4320X**

#### **FEATURES**

- SOT89 (SC-62) package
- Low collector-emitter saturation voltage V<sub>CEsat</sub>
- $\bullet$  High collector current capability:  $I_{C}$  and  $I_{CM}$
- · Higher efficiency leading to less heat generation
- Reduced printed-circuit board requirements.

### **APPLICATIONS**

- Power management
  - DC/DC converters
  - Supply line switching
  - Battery charger
  - LCD backlighting.
- · Peripheral drivers
  - Driver in low supply voltage applications (e.g. lamps and LEDs).
  - Inductive load driver (e.g. relays, buzzers and motors).

# **DESCRIPTION**

NPN low  $V_{\text{CEsat}}$  transistor in a SOT89 plastic package. PNP complement: PBSS5320X.

# **MARKING**

| TYPE NUMBER | MARKING CODE |  |  |
|-------------|--------------|--|--|
| PBSS4320X   | S44          |  |  |

## **QUICK REFERENCE DATA**

| SYMBOL             | PARAMETER                      | MAX. | UNIT |
|--------------------|--------------------------------|------|------|
| V <sub>CEO</sub>   | collector-emitter voltage      | 20   | V    |
| I <sub>C</sub>     | collector current (DC)         | 3    | Α    |
| I <sub>CM</sub>    | peak collector current         | 5    | Α    |
| R <sub>CEsat</sub> | equivalent on-resistance 105 m |      | mΩ   |

## **PINNING**

| PIN | DESCRIPTION |
|-----|-------------|

### **DISCLAIMERS**

**General** — Information in this document is believed to be accurate and reliable. However, NXP Semiconductors does not give any representations or warranties, expressed or implied, as to the accuracy or completeness of such information and shall have no liability for the consequences of use of such information.

Right to make changes — NXP Semiconductors reserves the right to make changes to information published in this document, including without limitation specifications and product descriptions, at any time and without notice. This document supersedes and replaces all information supplied prior to the publication hereof.

Suitability for use — NXP Semiconductors products are not designed, authorized or warranted to be suitable for use in medical, military, aircraft, space or life support equipment, nor in applications where failure or malfunction of an NXP Semiconductors product can reasonably be expected to result in personal injury, death or severe property or environmental damage. NXP Semiconductors accepts no liability for inclusion and/or use of NXP Semiconductors products in such equipment or applications and therefore such inclusion and/or use is at the customer's own risk.

**Applications** — Applications that are described herein for any of these products are for illustrative purposes only. NXP Semiconductors makes no representation or warranty that such applications will be suitable for the specified use without further testing or modification.

Limiting values — Stress above one or more limiting values (as defined in the Absolute Maximum Ratings System of IEC 60134) may cause permanent damage to the device. Limiting values are stress ratings only and

operation of the device at these or any other conditions above those given in the Characteristics sections of this document is not implied. Exposure to limiting values for extended periods may affect device reliability.

Terms and conditions of sale — NXP Semiconductors products are sold subject to the general terms and conditions of commercial sale, as published at http://www.nxp.com/profile/terms, including those pertaining to warranty, intellectual property rights infringement and limitation of liability, unless explicitly otherwise agreed to in writing by NXP Semiconductors. In case of any inconsistency or conflict between information in this document and such terms and conditions, the latter will prevail.

No offer to sell or license — Nothing in this document may be interpreted or construed as an offer to sell products that is open for acceptance or the grant, conveyance or implication of any license under any copyrights, patents or other industrial or intellectual property rights.

**Export control** — This document as well as the item(s) described herein may be subject to export control regulations. Export might require a prior authorization from national authorities.

**Quick reference data** — The Quick reference data is an extract of the product data given in the Limiting values and Characteristics sections of this document, and as such is not complete, exhaustive or legally binding.
